Mr. Don Miller
Missouri Geological Survey
Box 250
Rolla, Missouri 65401

PLUGGING AFFADAVIT

The core test drill hole described below was plugged on April 1, 1981 with 80 bags of Portland cement from a total depth of 1885 feet to approximately 3 feet below ground surface. The 4-inch surface pipe was cut off 3 feet below the surface, and the top 3 feet of hole was filled with earth. All excavated pits were filled and the site leveled and cleared of debris.

Location: NW $\frac{1}{4}$, NE $\frac{1}{4}$, Section 17, Township 64 N,
Range 41 W, Atchison County, MO

Property Owner: Herman & Bessie Tiemeyer

I am hereby requesting that the above information be held CONFIDENTIAL & PROPRIETARY for a period of at least one year from the date of filing.

Signed,

Norman E. Fretwell, Attorney-at-Law
